Procedural stealth Buffy the Vampire Slayer. You can choose your nail color. Game of the year!. You play as a detective (maybe the same one from Queen of Spades), who has come to a town that is currently getting flooded by rain and overtopping streams. This seems to have heightened a local legend where the Bronze Horseman at the center of the town square will awaken and pass judgement upon the citizens. The mayor has summoned you because his son has gone missing, and he wants you to find him.

Oh, and there is a rather familiar dwarf running about selling crystals that seem to be capturing souls.

The plot is fun, the music thematic (if repetitive), the HO scenes engaging, and the minigames challenging. Suggest getting in the Haunted Legends Bundle, but otherwise worth the play.. I got this game for 10 cents with a 90% off coupon. I beat it in under 5 minutes. I did like it, though. This is a thumbs up, but only if you get it with a coupon as I did, I can't see being satisfied spending \$1 on this. Could be a fun little game to optimize a speedrun for, however.

Single-button auto runner; you click to make the panda jump over obstacles and onto platforms. He turns around when he hits walls. Collect the coins, that's it.. pretty standard shooter with really good sound and a nice variety of weapons. Great Tower-Defense game!

It get's quite hard the last 5 levels even on Easy-Medium.

Worth \$15? No.

Worth the \$2.50 I paid during a steam sale? Yes.

If you like Tower Defense games and theirs a sale,

Then go for it!. bought this game just for fun, to customize my profile page using the alphabetic achievements. worth to buy if you like farming achievements. You spew a fountain of organs when you are murdered by mutant puppies. 10/10. Nice little game and good concept.

The controls are nice, the music fits and I think the puzzles are overall well done.

However, I would recommend buying it on sale. Its not really worth 7 euro.. Fun little shooter at a great price! It's nice being able to adjust the holster height to fit your needs. Difficulty seems spot on and will probably make a great multiplayer experience when that releases.

Note: You reload by spinning/touching the barrel with your offhand apparently. At least that's what MANTRONIX told me in the forums.

. its fun to play when you do not have anything else to do

my favourite part is when kuprum peed in folykls mouth 10V10. Short; basically a characterVability pack.
Probably not worth \u00a38.

Wait for a sale unless you really like the content offered here; which includes Eis\Nuova Shenron, Towa+Mira (With their abilities and outfits).. How can i use this ? reset the game ?. Didn't like Jim Sterling destroy this game before?. This is a great hack and slash game. If you like hack and slash 2D game then look no further.. I saw a villager get his head chopped off, it was adorable!
